Website/Web application hosting –Terms & Conditions

1. Site hosted in NIC Servers have to be free from all known vulnerabilities and security audit clearance has to be obtained by the Department/Development team.
2. The user department/organization will undertake re audit of the site/application hosted after some major changes made in the site/application, Re audit of site/application has to be invariably carried out by the department/organization at least once in every six months, even if changes have not been made in the site/application hosted.
3. NIC is not responsible for any loss of data due to the defective logic/vulnerabilities present if any, in the Web application hosted by the Department/Organisation in NIC's Servers.
4. Back –end operations at the Database, requested by the user department/organization (or) by the development team/agency are discouraged. In unavoidable circumstances, if back end department/organization has to provide written undertaking, taking full responsibility for action and consequences of such of such back end operations carried out on their behalf.
5. FTP access over VPN is provided to the user department/organization to update the site/application contents remotely, based on their request. In such cases, the department/organization has to ensure that the contents uploaded are free from any malicious files/folders. Unwanted zip/rar contents should not be kept in the site/application folders.
6. Site/application hosted should not have any third party freeware components/modules/libraries.
7. External URLs should not be directly linked or opened as part of the site/application. Before linking any external URLs, care should be taken to ensure that, they are free from known vulnerabilities.
8. All external URLs must be validated and encoded (URL encoded) before opening on separate browser window. A clear warning message should be displayed to the user saying that he/she is moving out of the department/organisation's site/application.
9. In case of paid hosting, the Organisation availing hosting services from NIC will pay the annual hosting charges, based on the Demand for payment raised by NIC, as per the charging policy of NIC.
10. If any of the terms are not satisfied by the user Department/Organisation(or) if the site/application is found to have security vulnerabilities at any point of time, NIC has the right to block the site/application from public access, without any prior notice to the department/Organisation.
